SUMMARY

I am a junior Full Stack Developer with a strong foundation in creating high-quality web applications from the ground up. With expertise in both frontend technologies like HTML, CSS, JavaScript, and Bootstrap, along with backend skills in C#, ASP.NET MVC, and SQL, I strive to deliver responsive solutions that fulfill client requirements while ensuring excellent user interaction.

EXPERIENCE

Web-Developer Intern

Prime Vertex Softwares

📅 08/2024 - 12/2024

Internship focused on web development.

- Successfully completed a five-month internship at Prime Vertex Software.
- Actively contributed to various projects, enhancing skills in software development and team collaboration.

EDUCATION

Higher Education in Engineering(1st Year)

SM.GOVT SCIENCE COLLEGE

📅 08/2023 - 2025 Excepted

High School in Computer Science

NASRA SCHOOL

📅 08/2021 - 07/2023

PROJECTS

Construction Website

📅 09/2024

Developed a **construction services website** using **ASP.NET MVC**, allowing users to order machinery and contact admin, with an admin panel for managing inventory and orders.

- Fully responsive layout optimized for multiple devices.
- Admin panel for managing machinery listings (add, update, delete).

E-Commerce Platform

📅 11/2024

Developed a fully responsive e-commerce website using **ASP.NET MVC**. The website allows users to create and manage accounts, update profiles, and save multiple shipping addresses. Users can search for products, download invoices for completed orders, and track their order status.

- Secure user registration and login system allowing account creation and management.
- Admin can add, update, and manage products, as well as process customer orders.

KEY ACHIEVEMENTS

💎 **Website Performance Optimization**
Increased website performance by 30% through optimized coding practices.

💎 **Web Applications Development**
Developed 2 web applications using ASP.NET MVC within 3 months.

💎 **Enhanced Project Speed**
Contributed to a team that delivered projects 20% faster than previous timeline.

💎 **Achieved Client Satisfaction**
Received 95% positive feedback from clients for high-quality web solutions.
